- » Jib: 3.61m<sup>2</sup>
- » Gennaker: 16.38m<sup>2</sup> (option)
- » Trapeze: Optional
- » PY: 1070

The Xenon is an excellent high performance two person boat designed for hiking - but with the added bonus of a trapeze option.

The incredibly beamy hull measures in at 2m wide allowing the crew to easily control the huge power source. An elegant chined hull further enhances her outstanding stability.

The impressive beam also makes for a very comfortable, spacious and uncluttered cockpit. A gnav system further increases the generous deck space and reduces cockpit clutter even further.

The powerful battened Mylar mainsail comes with a zip-reefing system as standard allowing performance to be tuned to suit a wider variety of skill levels.

Topper's unrivalled TRILAM construction is used again here, meaning the boat will stand up to all the stresses of training and racing and is virtually maintenance free. It comes with epoxy centreboard and rudders and the highest specification equipment is fitted as standard.

As used at the Endeavour Trophy and Mount Haes Trophy.
